CAREER OBJECTIVE

I am fascinated by everything related to software development, especially web development. Being aware of the latest technologies and techniques to deliver top-notch products is my goal. I plan to deepen and perform in roles such as front-end, backend, or fullstack. AWS is what I'm presently learning to move into specific positions such as DevOps or Cloud Engineer.

EXPERIENCE

● **Lapstore** (August 2022 - Actual)
Lapstore is a laptop e-commerce where you can build your own cart of products and contact the seller via Whatsapp. It is designed to be fast, dynamic, responsive and easy to use.
Stack | Next.js • Typescript • ChakraUI • Redux

● **Sporty e-commerce** (August 2022 - Octubre 2022, 2 months)
Sporty is an e-Commerce created from scratch. It aims at dynamic content and its easy manipulation using CMS in a BackOffice where only a user with the admin role can manage.

It uses AWS S3 for image management in the Cloud, Mongo DB Atlas for storage in collections such as users products, categories, ecommerce info.
Stack | React.js • Express.js • ChakraUI • Redux • AWS

● **Somos MAS Alkemy** (Junio 2022 - Julio 2022, 2 months)
Somos MAS is a blog created for an ONG with a team of five full-stack developers. It has a backoffice where you can see and manipulate the content (CMS) rendered on the page, such as events, news, entries, categories, users, etc.
Stack | React.js • Express.js • ChakraUI • Redux •
